

Recommendation – Niclas Madsen

Niclas has been employed as Junior Content Developer partly in Immortal Works ApS and Mu.st Render ApS from June 1st 2022 to October 31th 2022.

For Render he has been helping setting up new ad accounts and used our proprietary system to generate and run quality assurance on more than a 1000 pieces of digital advertisement for Industriens Uddannelser. For Immortal he has helped advise on content strategies for many of the upcoming Web3/blockchain projects within sports and culture.

Niclas is a very motivated and responsible colleague. He is always in a good mood and does his best to succeed with the tasks in front of him. Unfortunately it was not a great fit for us. We have learned that the position requires a person with senior experience. We wish Niclas all the best and good luck with his future professional career.

For direct recommendations or questions I can be reached on +45 21439095 / [LinkedIn](#).

Regards,
Dennis Bøgestad Laursen
